**REMARKS**

This paper is being filed in response to the Notice to Comply With Requirements For Patent Applications containing Nucleotide Sequence And/Or Amino Acid Sequence Disclosures mailed July 1, 1998.

Preliminarily, Applicants advise that all sequences in the specification are listed on the CRF submitted with the Second Supplemental Preliminary Amendment filed May 26, 1998. Nonetheless, a replacement paper copy of the Sequence Listing and replacement CRF are submitted herein. No new matter has been added.

During a telephonic discussion with the Examiner, the undersigned was informed that the amendments requested in the Preliminary Amendment dated July 8, 1992 filed in grandparent application Serial No. 07/743,329, and requested to be entered in the present application in the Preliminary Amendment submitted upon filing, had not been entered, nor would they be.

Although it is Applicants' position that the amendments in question should have been entered, in an effort to advance prosecution, Applicants submit this Third Supplemental Preliminary Amendment to effect the amendments reflected in the July 8, 1992 Preliminary

Amendment, as well as the changes attempted thereto in the Supplemental Preliminary Amendment filed in the above-identified application on March 17, 1998. In making the above-identified amendments, Applicants' line counting began with the first line of text and included lines without text.

As is clear from the foregoing, no new matter is added by these amendments.

Applicants respectfully request that they be entered.

It is expected that all remaining amendments from the March 17, 1998 Supplemental Preliminary Amendment, as well as the amendments effected in the Second Supplemental Preliminary Amendment filed May 26, 1998, have been entered. The Examiner is requested to advise the undersigned if this expectation is incorrect.

Applicants earnestly request, however, that, even if there are outstanding issues regarding the Sequence Listing, examination on the merits proceed promptly. In particular, Applicants request that the Examiner advise them as soon as possible whether the Examiner

intends to declare an interference. The Examiner is requested to contact the undersigned at

Respectfully submitted,
